

Why Choose PebbleTec?

Pebble Technology International (PebbleTec®) has long been renowned for offering the "World's Most Trusted Pool Finishes."

With a reputation for excellence and consistency, the PebbleTec brand name is, hands-down, the most recognized and most recommended in the U.S. new pool finish market among both pool builders and consumers.* We deliver a spectrum of texture and water color options for every pool project — all with superior beauty, industry-leading durability and reliable installation.

Beauty

- We source the highest quality aggregate from all over the world.
- We design for maximum beauty.
- We adhere to strict stone color/size specs — so that every pool finish looks just like the sample on the display wall.

Durability

- We use fade-resistant pigments for vibrant water color that lasts decades.
- We include proprietary additives for extra strength.
- We screen at multiple stages throughout production to deliver material purity and consistency.

Reliable Installation:

- We work only with Authorized Applicators to ensure that every finish is installed correctly the first time.
- We support our Applicators and Builders with a traveling QA/Technical Support Team that is second to none (Over 25,000 support hours per year).
- We stand behind our products with a comprehensive product warranty — while our Authorized Applicators offer a warranty on workmanship.
